Designed in France

What is Zook

"ZOOK" comes from the popular Caribbean word "Zouk" which means festival. ZOOK with its eccentric range of products celebrates life and the delicate moments that come with it which resembles a festival of life-time

Background & Philosophy

Zook is a division of Intelligent Technologies specialized in high-end designing, manufacturing & marketing innovative Consumer electronic products.

ZOOK branded products are not merely decorative, they are an expression of distinctive living culture. Our Goal is to combine "Innovative product concept, Intelligent technology and exciting design" beneath a unique finish and right material used to create an emotional desire to own the product.

The Origin

Z000K was born in France, conceptualised and created by technology freaks who are artistic and creative. This fusion of techno-art and the desire to create a high-velocity impact on Earth by its mere existence led to Z000K. Specialize in high-end designing. Manufacturing and marketing innovative Consumer electronic products is its sole purpose.

Our mission is to create products that not merely are decorative, but to be an expression of distinctive living culture.

Zook Spirit

Z000K Believes adding new perspectives to the world is the key With its aesthetic design and precision-driven performance, Z000K is missioned to transform the landscape of consumer electronics industry. All Z000K's products are designed through art inspiration and imagination. With this insistence, Z000K brings innovative and creative products that décor our surrounding and add fun to our life.
